

# Meet the "MUT"

**...it moved  
a million bushels  
of corn  
in 30 days.**

## Our new Mini-Unit-Train

(MUT, for short)

gives us a solid, workable way to squeeze out every hour's worth of hauling capacity built into a jumbo hopper car.

Achieving maximum utilization.

The MUT heads west from the Mississippi River in the evening, dropping off five empty jumbo hopper cars at each of four pre-determined grain elevators.

The next evening, MUT picks up the cars loaded with corn and makes its return run.

Once off-loaded to river barges, MUT is ready for another trip.

With perfect timing and total cooperation from all involved, the MUT made 15 round-trips in its first 30 days of operation.

Over a million bushels of corn moved. It has proved so successful that we've already extended the service to other routes.

Most important, our customers had a dependable transport system. Perhaps we can do the same for you.

Whatever you ship, wherever you sell it, we'd like the opportunity to work with you in getting your goods to market.

We're a railroad.

But our business is *total distribution*.

**Call your Milwaukee Road representative. He will show you why it makes more sense than ever to ship on the Milwaukee Road, America's resourceful railroad.**
