

1st MONDAY 3rd MONDAY

Prepared for employees by the
Milwaukee Road's Corporate Relations Department
516 West Jackson Boulevard Chicago, Illinois 60606
Telephone 312 648-3324

April 18, 1983

To All Milwaukee Road Employees:

Apparently the calendar lied. It had announced the advent of spring. But the blizzard that hit the Twin Cities and other parts of Minnesota last Thursday - 13 inches of snow, winds up to 50 m.p.h. - contained all the elements of a mid-winter storm.

Industry sent employees home early, roads closed, airports were snowed in, traffic was snarled but the Milwaukee Road continued to operate. And certain officials of the City of Duluth were glad we did. They faced a serious situation because it was imperative they get some important revenue bonds to the state capital in order to meet a deadline.

With air traffic stalled and highways virtually impassable, they turned to the Milwaukee for help. Our freight train No. 610 offered a solution.

Arrangements were made to transport the City Clerk from Duluth to St. Paul on No. 610 where a police escort was waiting at Hoffman Avenue to meet him for the final leg of the journey. The documents had to be delivered by midnight, and with the cooperation of all involved, delivery was made by 8:00 p.m. And a scenario, which earlier in the day could have been labeled "Mission Impossible", became mission accomplished.

* * *

You may remember the "Did you Know" circulars covering various car related matters that the Transportation Department issued back in 1979 and 1980. Recently we have received inquiries from various people asking how the costs of certain subjects previously covered now stand.

The following is intended to answer some of those questions.

Money paid to other roads for the use of their equipment and received from other roads for the use of Milwaukee Road equipment.

	<u>1979</u>	<u>1982</u>
Paid	\$49,900,000	\$32,635,000
Received	33,188,000	26,308,000
Net	(16,712,000)	(6,327,000)

Freight cars owned or leased:

December 1979: 25,630 April 1983: 10,991

Freight cars on line:

	<u>July 1979</u>	<u>April 1, 1983</u>
Milwaukee Cars	13,787	7,022
Other Railroads	11,052	4,957
Private Marked	<u>7,532</u>	<u>8,466</u>
Total	32,371	20,445

Payment per loaded mile for private covered hoppers and private tank cars:

	<u>1979</u>	<u>February 1983</u>
<u>Hoppers</u>		
Maximum	\$.24	\$.55
Our Average Payment	.18	.40
<u>Tank Cars</u>		
Maximum	\$.32	\$1.09
Our Average Payment	.23	.69

We pay a mileage charge for other private marked cars for both loaded and empty miles. In 1979 we paid 10¢, and in 1983 we pay about 12.1¢.

We are paying 6.6¢ per mile to foreign car owners for each mile their equipment moves on the Milwaukee Road and an average of \$10.09 per day. However, there are many newer foreign cars costing us \$25.00 per day or more. There is a numeric code in all train lists immediately before the contents which gives the approximate daily per diem value of cars. Multiply this number by 3 to arrive at the approximate daily charge, i.e., Code 4 x 3 equals a car value of approximately \$12.00 per day. This code also appears on many other computer reports used by agents and clerical forces.

In 1975 fuel oil cost 29.9¢ per gallon and our fuel oil cost per carload handled was \$32.59.

In 1979 the cost per gallon was 60.5¢ with a cost per carload handled of \$59.00.

In 1982 the average cost per gallon was 95¢ with a cost per carload handled of \$73.94. Between 1979 and 1982 fuel oil costs increased 57%, but fuel oil cost per carload handled increased only 25% due to a more efficient operation on the smaller railroad.

When Car Management was formed in September 1980, we charged each car director with a towing charge of 30¢ for each mile a car under his jurisdiction moved. Directors are also charged with any mileage charges paid to the car owner. In 1983 the towing charge is 40¢. This towing charge is a measure to determine the effectiveness of car distribution and is not an actual operating cost, which in most cases would be higher.

* * *

Milwaukee Shops Mechanical and Environmental personnel should be complimented for their efforts in achieving a savings of \$20,000 for the first quarter of 1983 heating season by using fuel oil which was extracted from the waste water that flows through the Waste Water Treatment Facility before entering the Milwaukee sewer system.

A pilot program was initiated by the Manager of Environmental Control to convert skim oil, through the use of a centrifugal purifier, a heating process and various chemicals, into a product which would be suitable for heating use. This program could be expanded, producing fuel oil suitable for heating purposes for use at other facilities such as St. Paul and Portage and this possibility will be investigated.

* * *

On August 27, 1982 and February 11, 1983 we mailed 18,543 back pay checks to the home addresses of our current and former employees. For various reasons, improper address, forwarding address time period lapsed, etc., the postal service returned approximately 1,600 of the back pay checks to the Treasurer's Office.

The Treasurer's Office has tried several different methods to deliver the returned checks to their rightful owners. Listings have been mailed to our major terminals, union representatives have been contacted, and the Railroad Retirement Board was furnished a complete list with the thought that their address list of our former employees might be more up to date than ours. After all this effort, we still have 1,072 back pay checks on hand.

As mentioned in FM/TM of February 22, Trustee Ogilvie feels strongly that anyone who has worked for the railroad is entitled to get paid. That's why he's asking that an extra effort be made to try to locate these former employees and is appealing for your help.

A list of the employees we've been unable to contact is attached to this newsletter and is being mailed to all current employees. It is arranged in alphabetical order by state, city and employee. Please examine the list to see if you recognize any of the names.

If you are able to identify someone, have him or her contact the Treasurer's Office, 516 West Jackson Boulevard, Chicago, Illinois 60606. They should provide their address, social security number, brief description of the period they worked and their legal signature.

I'm sure they will be grateful for your interest and so will we.

W. L. Smith
President
